PUBLIC SAFETY TECHNOLOGY SUMMIT

Implementation and Utilization of Public Safety Technology

February 27-28th, 2019
The Mayfair | Miami, FL

A DUAL CONFERENCE EVENT:

Body-Worn Camera Summit
Public Safety UAS and Counter Drone Summit
What are the key factors related to Body-Worn Cameras and Public Safety UAS?

Our all-new dual conference summit combines critical public safety technology updates and best practices to allow your team the best chance to learn and explore opportunities in one setting.

Engage in advanced topics related to Body-Worn Camera usage and public safety Unmanned Aircraft Systems and Counter Drone. From advanced policy writing, funding options, obtaining public support, data storage and management issues, to maximizing the usage of your drones and body-cameras, come prepared to ask subject matter experts the tough questions in your search for answers.

This two-day event was specifically designed to help all public safety departments operating a drone or body-camera program to operate efficiently as possible to serve the public. Expert advice will be plentiful from a variety of speakers on how to sustain, improve and advance your programs to benefit your department and personnel.

TOPICS INCLUDE:

- Implementing UAS Program into Public Safety Departments
- Sustain, Improve, and Advance Your Current BWC Program
- Compliance and Risk Management Within Your Program
- Policy Writing- Program Management- Collection and Reporting Procedures
- UAS and Body-Camera Officer Training Program

Protect and Serve! Learn from industry leaders on how to protect your community by advancing your operational capabilities within your body-worn camera and UAS programs and maximize the technology and efficiency within your department.

Sincerely,

Tim Hart, Conference Director
